See the Latest from CalDigit at IBC 2009

CalDigit is the leader in storage solutions for content creation. With years of experience and proven industry acclaim, CalDigit has paved the way for the future of storage. You can see the latest innovations from CalDigit at IBC (Stand 7.D03), like the new CalDigit VR mini.

The CalDigit VR mini is an innovative, compact and bus powered two drive RAID system, supporting a quadruple interface for easy connectivity. The CalDigit VR mini's modular design provides two removable drive modules and an easy to read frontside LCD. With support for RAID 0, 1, and JBOD the CalDigit VR mini can reach speeds fast enough for high definition video editing. It includes easy to use software allowing for firmware updates, configuration, monitoring and even supports email notification. The CalDigit VR mini packs a ton of performance into a small package, making it a truly portable storage solution that can fit in the palm of your hand.

To see the latest innovations from CalDigit be sure to stop by Stand 7.D03 at IBC. For additional information about CalDigit, visit www.caldigit.com

About CalDigit (www.caldigit.com)

CalDigit has been dedicated to the content creation industry for over ten years. Every product is exclusively designed with the user's requirement in mind. CalDigit has a team of world-class software and hardware engineers. Closely bonded, the CalDigit team works to develop the best RAID software and hardware in the industry. CalDigit is the one source for Video Editors, Photographers, and Musicians. CalDigit offers users a secure, practical, and a sleek modular design, which provides users with advanced replacement and true single vendor support. CalDigit is your complete RAID solution choice, at an affordable price. Corporate headquarters are located in Northern Orange County, California, where all products are tested and assembled.
